

**RUG COLLECTION**

Judy Ross Textiles rug collection is about the work of an artist creating designs that are at once contemporary and timeless.

Judy Ross Textiles produces luxurious hand made custom rugs and home accessories using the finest materials and craftsmanship. Our rugs incorporate New Zealand wool, Tibetan wool, Bamboo and Chinese Silk, in a variety of combinations. They can be hand knotted at 100 knots per square inch. We can also create our designs using our signature chain stitch technique in New Zealand Wool, which can include Rayon/Metallic accents.

Any existing Judy Ross Textiles design can be customized to your needs and specifications. Our extensive library of yarns and swatches allows for countless color combinations and the ability to create custom designs without limitations. Our design team can determine exactly what is required, consult and present design/colorway ideas, and give our recommendation on techniques that are most suitable.

We are happy to collaborate for uniquely tailored one of kind rugs for commercial or residential projects.
