▲ TWILIGHT SOFA

DESIGNER: Flemming Busk

Designed in response to a furniture competition at the Århus School of Architecture in Denmark in 1999, the Twilight Sleep Sofa ingeniously accomplishes what many conventional convertible sofas cannot: It functions as a single-person daybed or easily unfolds for multiple sleepers. Intended for sitting, resting and sleeping, the design is ideal for dens or guest rooms. Unlike many sleep sofas, which have uncomfortably deep seating surfaces, this design features a bolster pillow that adjusts to three different positions for customized seat depths (19.5"/23"/34.75") and lumbar support. Grey Sofa features black piping; Dark Grey, Grass and Autumn feature light grey piping. Casters on the rear legs make for easy mobility. Conveniently uses two twin extra-long fitted sheets and coordinating flat sheets, or two twin extra-long fitted sheets with one king-size flat sheet. Assembly included with our White Glove service. Made in Denmark. **DWR ONLY.**

MATERIALS: Powder-coated aluminum frame; sinuous spring interior suspension; polyurethane foam bolster and mattress; Grey, 53% cotton, 7% polyester upholstery; Dark Grey /Autumn, 100% cotton; Green, 63% cotton, 37% linen.
